Hi Paul,

As discussed on the phone, attached is the complete Notice of Intent from Mountain Valley Stone with their plans for quarrying at the former Zamaroni Quarry Inc. site in Antelope Valley, northeast of Gunnison. You are identified in our records as the current owner of the land surface.

The Division has issued a small mine permit, and has approved their reclamation surety.

We'll be re-sending the most recent permit issuance letter on which you were carbon copied, but you can see it and other correspondence for this project at the link, for which you will need to use "ogmguest" as both the username and password:

<http://linux3.ogm.utah.gov/WebStuff/wwwroot/minerals/mineralsfilesbypermit.php?S0390041>

The most recent correspondence and files show up at the bottom of that webpage, since the data hasn't been entered for them yet.

Peter
